

Motion 2 – Proposed by Keith Plumb and his supporters

We the undersigned members no longer believe that the Institution of Chemical Engineers represents the wishes or interests of the majority of its members. We therefore call for a vote of no confidence in the President and Council of the Institution of Chemical Engineers.

The signatories of the EGM requisition no longer believe that the Institution of Chemical Engineers represents the wishes or interests of the majority of its members. We therefore have called for a motion of no confidence in the President and Council of the Institution of Chemical Engineers.

There are many ways that the Institution no longer represents the wishes or interests of its members including:

1. The undemocratic way that Council members are selected, the lack of transparency and poor governance of the Institution.
2. Lack of support for member volunteers resulting in disengagement between the membership and the Institution.
3. The unprofessional way that Council has handled the ongoing complaint against a Fellow and the complaints procedure in general.

We call upon all voting members of the Institution who believe that the Institution no longer represents their wishes or interests to join us in this vote of no confidence.

Statement submitted by Keith Plumb on behalf of the requisitionists.
